

**MOSS LANDING HARBOR
OPERATIONS AND MAINTENANCE**

PROJECT LOCATION AND DESCRIPTION: This project is located about 95 miles south of San Francisco, in Monterey Bay. Project operations and maintenance provides for 3-year maintenance dredging of an entrance channel 200 feet wide and a lagoon channel 100 feet wide, at -15 feet at Mean Lower Low Water (MLLW). The total length of the combined channels is about 3,200 feet, with widening at the junction of the entrance and lagoon channels, and at the very end of the inner lagoon channel. Two jetties are also periodically inspected and maintained.

TOTAL FUNDING:

TOTAL COST: \$ N/A

FEDERAL COST: \$ N/A

NON-FEDERAL COST: \$ N/A

TOTAL FEDERAL COST FY05: \$ 234,000

FISCAL YEAR 2006 BUDGET: \$ 0

COST TO COMPLETE: \$ N/A

FY 05 AND 06 ACCOMPLISHMENTS: Funds will be used to complete the ecological risk assessment and Dredged Material Management Plan (DMMP), and to implement plan prior to the next scheduled periodic maintenance dredging.

ISSUES AND OTHER INFORMATION: An environmental risk analysis study for continued aquatic disposal at SF-12 is underway. The draft Initial Ecological Risk Assessment was Peer-reviewed in February of 2004 and work is continuing to address comments from that review.

Maintenance dredging was last conducted in November 2002. The next dredging cycle for 3-year maintenance dredging should occur in the winter of 2005 (FY06), but cannot occur if there are no funds available. Ramifications of missing this dredging cycle are currently unknown, but could be considerable.

CONGRESSIONAL INTEREST: 17th District, Rep. Sam Farr
